

TECHNICAL DESCRIPTION**273 / August 2006**

Cancels and replaces all previous editions

DEKO PROFESSIONAL BAT SUMMER THINNER

DEKO PROFESSIONAL BAT WINTER THINNER

Mixture from organic solvents

Accessory product

- Use:** Dilution to working viscosity of Deko Professional paint for horizontal road marking.
 Deko professional BAT Summer Thinner - used from April to August.
 Characteristic: For drying optimization at high summer temperatures.
 Deko professional BAT Winter Thinner -used from September to April.
 Characteristics: Decreases drying time at low winter temperatures additionally is plasticizing the paint increasing its elasticity.
- Classification:** Meets the requirements of Bulgarian legislation.

CHARACTERISTICS

INDEXES

NORM

	Deko professional Thinner BAT SUMMER	Deko professional Thinner BAT WINTER
Appearance: (visually)	Clear, transparent, easily flowing liquid with no mechanical impurities.	Clear, transparent, easily flowing liquid with no mechanical impurities.
Colour: (visually)	Colorless to light yellow	Colorless to light yellow
Odour: (organoleptically)	Specific	Specific
Density at 20⁰C, with aerometer: (BNS EN ISO 3675)	0,850 – 0,870 g/cm ³	0,860 – 0,880 g/cm ³
Volatility to di-ethylic ether:	9 - 13	9 - 13
Package:	Metal tightly closed packages of capacity of 1 L, 20 L. The use of other packages is also possible, but after a preliminary agreement with the client.	

Storage:

Attention! Extremely easy flammable liquid (with flash point below 21 °C). The vapours may form explosive flammable mixtures with the air.

Store in original, tightly closed packages in cool, covered and dry warehouses, away from direct sunlight and heating appliances!

Shelf life: 24 months from the production date in a fabrically closed package.

Way of work:

Open the package carefully. Add the thinner slowly to the paint, in a trickle, at constant stirring.

The amount of the thinner added depends on the type of the paint, the application technique of the coatings and the desired final effect.

Hygiene and safety work:

Deko professional BAT Summer Thinner and Deko professional BAT Winter Thinner is classified as dangerous by inhalation and in contact with skin. When using it, the requirements for fire-fighting safety and production hygiene must be kept. Work at constant ventilation. In case of dizziness or headache go out immediately to fresh air. Avoid skin and eye contact. Keep out of the reach of children.

If necessary – refer to the Material Safety Data Sheet.

The present technical description has the purpose to inform the clients on the quality of our product. The data herein is based on our present best knowledge. We invite our clients before work to check the quality of the product or its adaptation to the base and to make an experimental application. Our clients must be sure, that the present technical description hasn't been changed or replaced by a newer edition.
