

ACRYLATE PAINT FOR HORIZONTAL ROAD MARKING CITY PLUS

DESIGNATION AND PROPERTIES:

- Designated for central city partworking under extremely heavy traffic conditions.
- Perfect resistance to car oils, petrol and water.
- Very good drying and extremely high resistance to abrasion.
- Very good cohesion.
- In compliance with EN 1871:2004.

TECHNICAL PARAMETERS

INDEXES	NORMS
Flowing time, funnel 6 mm, (23±0,5)°C: [EN ISO 2431]	min 100 s
Плотность, (23±0,5)°C: [EN ISO 2811-1]	min 1,65 kg/L
Non-volatile substances content, at (105-110)°C/1h/2g: [EN ISO 3251]	min 77 %
Complete drying time (23±2)°C in dry film thickness 45-60 µm: [EN 29117]	max 20 min
Sand abrasion to the film, at dry film thickness 60 µm: [BSS 14120-77]	0,91 kg/µm
Consumption:	0,450-0,550 kg/m ² in dry film thickness approx 250 µm.
Packaging:	Metal packaging in net weight: 25/30 kg
