

		Technical description
		ST-ORG-0013
Architectural	<h2 style="margin: 0;">Thinner</h2>	
Auxiliary		
Interior/Exterior		
<p>Thinner is suitable mixture of different solvents. It is used for dilution to working viscosity of paint and varnish coatings on a base of alkyd resins.</p>		

Colour
Transparent to light yellow

Technical characteristics	
Appearance (after stirring)	Clear, transparent, easily flowing liquid without mechanical impurities
Flash point in covered pot, °C, min	20°C
Volatility towards diethylic ether	20-80
Density, kg/L	0,760-0,830

Application	
Recommendation	Stir well before use.
Application method	The thinner is added slowly to the paint in a thin stream with continuous stirring. The amount of added diluent depends on the paint type, the application technique and the desired end effect.

Packages
1 L

Storage
Store in sheltered, dry and fire protected warehouses at temperatures from 5 to 30°C, away from direct sunlight.

Shelf life
12 months from the production date in fabrically closed package.

Safety measures
<p>Thinner is classified as a harmful product for inhalation and for skin contact. When using it, the requirements for fire safety and productional hygiene must be kept. During work continous ventilation should be provided. In case of vertigo or dizziness, immediately go out into the fresh air. Avoid contact with skin and eyes. Keep away from children.</p> <p>If necessary – refer to the Material Safety Data Sheet</p>

The present technical description has the purpose to inform the clients on the product. Orgachim JSC invites its clients before work to check the quality of the product or its adaptation to the base, to make an experimental application, to use the product properly, to keep the application conditions in accordance with the label prescriptions and technical parameters.

In the absence of control over the conditions and method of application, the manufacturer does not provide a guarantee of its durability as well as of any direct or indirect consequential damages caused or related to the use or application of the product. Users must be assured that the current description is the last and has not been replaced by a newer version.
